Workers Compensation and Summer Employment
With summer approaching and the school year coming to an end, you may be considering seasonal employment. As a reminder, health care benefits provided to you by the Board of Education through the Jefferson Health Plan do not cover any work-related injuries or diseases, including those incurred during seasonal employment.

For example, if you are injured or acquire an occupational disease during summer employment, any and all medical claims or services you receive for treatment of the injury or disease will be denied by the Jefferson Health Plan and those companies that serve to administrate the terms of the Board of Education’s health care benefits. Should you need medical treatment or services as a result of a summer job-related accident, injury or disease, you must seek reimbursement through
your summer employer's Workers' Compensation coverage. Otherwise, you will be responsible for the full cost of any such medical treatment, services or claims. Therefore, when seeking summertime job opportunities, always make certain that your temporary employer carries adequate Workers' Compensation coverage.

**Insurance Open Enrollment**
Open enrollment for insurance is September 1 – October 15 to be effective November 1. If you would like to enroll for coverage at this time please contact Heather or Dawn.

Have a great summer!
